## Your First Choice for Single-source Facilities Services

**As the region's largest full-service mechanical, electrical, and plumbing contractor, DeBra-Kuempel can provide a complete array of managed facility services.**

### Expertise You can Rely on

We provide a single source solution for all your facility services requirements. If you need planned maintenance for your heating, air conditioning, refrigeration or electrical systems, call us. If you need to maintain a specialized environment, such as a computer room, lab, or environmentally controlled chamber, we can handle the job.

And if you need new construction, retrofit or tenant fit out, you'll find no matter how large or complex the job, our experienced professionals and skilled field technical resources can satisfy your most exacting standards. And we'll do it on schedule. It's a complete package of facility services designed to give you consistently peak performance operation throughout your facility's full lifecycle.

We maintain a large fleet of service vans, fully stocked with the appropriate parts and tools for trade specific tasks. In addition, we have a staff of full-time delivery personnel who transport materials, parts and specialty tools to satisfy emergency needs or unique project requirements. And for truly customized projects, we operate a fully equipped fabrication shop for manufacturing pipe and other plumbing components.
