SAFETY IS JOB #1.

At DeBra-Kuempel, we're wholly committed to zero injuries. Each of our employees—from our senior management team to our field staff—has a personal commitment to safety. Each day we work tirelessly to ensure that every decision we make brings us closer to our goal of delivering projects on time and on budget, with zero injuries.

Expert Services. Long-term Value. For Over 70 Years.

DeBra-Kuempel has the expertise to service and maintain your cooling towers and evaporative condensers. We have extensive experience in servicing all machines such as BAC, Evapco, Marley, Recold, Delta, and many others. In addition to service, we have a complete cooling tower Rebuild Division that can extend the care for your towers with prompt and professional services, bringing you extended life and improved operating conditions overall.

Extending the useful life of your cooling tower is a primary goal of ours. Retrofitting or rebuilding your cooling tower has proven to extend the life of a cooling tower for an additional 5–15 years. This allows you the time to properly budget for a future replacement while gaining life cycle years ahead of industry standards.

Free Tower Evaluation and Reviews

If your cooling tower or evaporative condenser is 10 years old or older, it is a prime candidate for a rebuild. If your tower is 20 years or older, it may possibly qualify for a rebuild but time may be running out. Either way, call us to have your tower evaluated and don't spend that money to replace your tower if you don't have to.

Cooling Tower Services

- » Crossflow and counterflow towers
- » Closed-loop evaporative condensers
- » Customized preventative maintenance programs
- » Mechanical floats and electronic water level devices
- » Free tower evaluation and reviews

Complete Tower Rebuild Services

- » Fill replacement
- » Drift eliminators
- » Intake air louvers
- » Water distribution systems
- » Nozzles
- » Mechanical floats and electronic water level devices

Coating Services

- » Hot water basins
- » Cold water sumps
- » Seam leak repairs
- » 3-year no-leak warranty

Motor Services

- » Gearbox rebuild services
- » Motor replacements/upgrades
- » Sheaves and belts
- » Alignment
- » Variable frequency drives (VFDs)

Non-destructive Testing

- » Spectrographic gear oil analysis
- » Vibration analysis

Fan Blade Services

- » Replacements
- » Sound reduction
